

# Fund Update for the Britannia Retirement Scheme – Lifetime Income Fund

**For the quarter ended 31 March 2019.**

This revised Fund Update was first made publicly available on 4 June 2019. It replaces the Fund Update published on 30 April 2019. The changes made relate to the total value of the fund, annual returns, the annual return graph, the investment mix charts, the top 10 investment table and the investor example.

## WHAT IS THE PURPOSE OF THIS UPDATE?

This document tells you how the Lifetime Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Britannia Financial Services Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## DESCRIPTION OF THIS FUND

The Lifetime Income Fund turns members' investments into a Retirement Income for the rest of their life. It invests members' money in a diversified portfolio that has a bias towards defensive or income assets and insures their retirement income with Lifetime Income Limited, an insurance company licensed by the RBNZ.

The currency hedging objective for the Lifetime Income Fund is for the entire Fund to be hedged against changes in the value of the New Zealand dollar if there are at least \$2,000,000 of equity investments held in the Fund. While this Fund has a 100% hedging objective, a hedging range of 90% to 100% (once hedging becomes mandatory) will be acceptable and within the limits set by this SIPO.

## WHAT ARE THE RISKS OF INVESTING?

Risk indicator for the Lifetime Income Fund\*

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on returns data from 1 May 2018 to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future Fund Updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

*\* The fund does not have a full 5-year return history as it started on 22 March 2018. To calculate the risk indicator, we used actual returns where available and market index returns for the remainder of the five years to 31 March 2019. The risk indicator may therefore provide a less reliable indicator of the potential future volatility of the fund.*

## HOW HAS THE FUND PERFORMED?

|   | Past year |
|---|-----------|
| <b>Annual return</b><br>(after deductions for charges and tax)                    | N/A       |
| <b>Annual return</b><br>(after deductions for charges but before tax)             | N/A       |
| <b>Market index annual return</b><br>(reflects no deductions for charges and tax) | 7.49%     |

The market indices on which the market index annual return is based are the following:

- S&P/NZX 90 Day Bank Bill Index
- 50:50 weighted average of the S&P/NZX Government Bond Index Total Return and S&P/NZX A Grade Corporate Bond Index Total Return Indices
- Barclays Global Aggregate Bond Index (100% hedged to the NZ dollar)
- S&P/ASX300 Accumulation Index (in NZ dollars)
- MSCI All Country World ex Australia Accumulation Index
- S&P/NZX50 gross including imputation credits

Additional information about the market indices used in calculating the market index annual return for the fund is available on the offer register. The benchmark indices are defined in the Statement of Investment Policy and Objectives for the Britannia Retirement Scheme.

## WHAT FEES ARE INVESTORS CHARGED?

Investors in the Lifetime Income Fund are charged fund charges. In the year to 31 March 2019 these were<sup>1</sup>:

|  | <b>% of net asset value</b> |
|--|-----------------------------|
| <b>Total fund charges</b>  | 1.15%                       |
| Which are made up of –   |                             |
| <b>Total management &amp; administration charges:</b>  | 1.15%                       |
| Including –  |                             |
| Manager's basic fee  | 0.64%                       |
| Other management and administration charges  | 0.51%                       |
| <b>Total performance based fees</b>  | 0.00%                       |
| <b>Other charges</b>   |                             |
| Insurance Premium charges as a percentage of the member's Protected Income Base <sup>2</sup> | 1.20%                       |

Investors may also be charged individual action fees for specific actions or decisions (for example, contribution, transfer out, early withdrawal, benefit calculation or overseas exchange of information fees). See the PDS and Other Material Information document for more information about those fees. These documents can be found at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

Small differences in fees and charges can have a big impact on your investment over the long term.

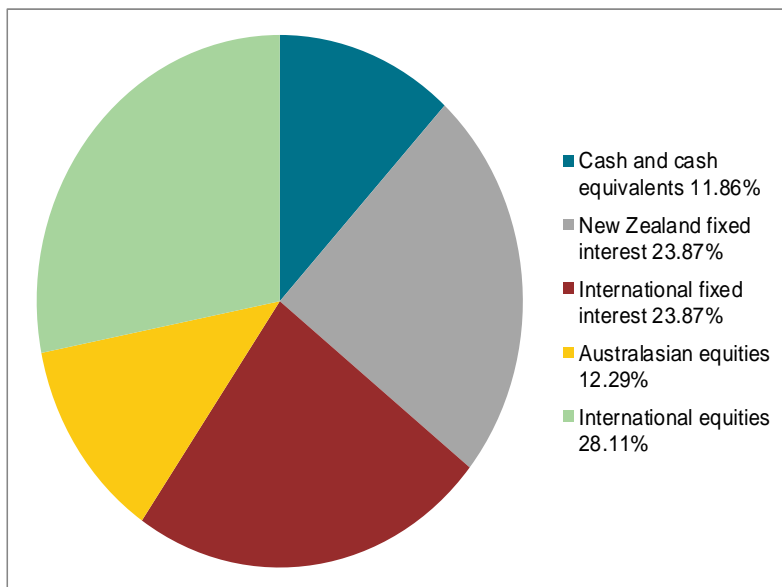

## EXAMPLE OF HOW THIS APPLIES TO AN INVESTOR?

Liz had \$10,000 in the fund eleven months ago and did not make any further contributions. At the end of the eleven months, Liz received a return after fund charges were deducted of \$324 (that is 3.24% of her initial \$10,000). Liz also paid an insurance premium of \$110. This gives Liz a total return after tax of \$168 for the eleven months.<sup>3</sup>

## NOTES

<sup>1</sup> The Manager also charge reasonable auditing and other professional services charges to the fund in the future. Currently the Manager does not charge these fees to the fund, so the fee for these professional services is nil.

<sup>2</sup> An insurance premium is paid to Lifetime Income Limited for an income insurance policy. The insurance premium is 1.20% of the Protected Income Base. See the PDS for details.

<sup>3</sup> If Liz is 60 years of age, she has opted to receive her Lifetime Withdrawal Benefit and her Protected Income Base was \$10,000, she will have also received a return of \$413 (4.13%) for the eleven month period after tax and fees.
