

# FUND UPDATE

For the quarter ended 31 March 2021

## Integral Master Trust

### Global Equities Fund

This fund update was first made publicly available on 3 May 2021

---

#### **What is the purpose of this update?**

This document tells you how the Global Equities Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Britannia Financial Services Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The fund invests in international shares through investment funds operated by our Investment Manager, with a small allocation to cash for operational liquidity. It aims to achieve long-term capital growth through a structured exposure to listed global shares. Investors are exposed to developed and developing economies through an efficient exposure to a highly diversified pool of assets, using both qualitative and quantitative investment techniques.

The fund's exposure to assets denominated in foreign currencies was 98.75%, of which 0% was hedged, and volatility is expected to be high.

Total value of the fund	\$73,866,149
The date the fund started	19 May 2011

#### **What are the risks of investing?**

Risk indicator for Global Equities Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz](http://www.sorted.org.nz).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the five year period ending on 31 March 2021. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

	Average over past 5 years	Past year
<b>Annual return</b> (after deductions for charges and tax)	9.70%	32.08%
<b>Annual return</b> (after deductions for charges but before tax)	10.93%	33.59%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	13.02%	30.34%

The market index annual return is based on the MSCI All Country World ex Australia Accumulation Index. Additional information about the market index is available on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

### Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2021.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

### **What fees are investors charged?**

Investors in the Global Equities Fund are charged fund charges inclusive of GST. In the year to 31 March 2021 these were:

	<b>% of net asset value</b>
<b>Total fund charges</b>	1.27%
Which are made up of -	
<b>Total management and administration charges</b>	1.27%
Including -	
Manager's basic fee	0.59 %
Other management and administration charges	0.68 %
<b>Total performance-based fees</b>	0.00%

The Manager's basic fee and Other management and administration charges are estimated. Please refer to Note 1. The fund charges for the following scheme year are expected to be materially different. Please refer to Note 2 for further details.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Global Equities Fund on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose) for more information about those fees.

### **Example of how this applies to an investor**

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$3,359 (that is 33.59%% of his initial \$10,000). Chris did not pay any other charges. This gives Chris a total return after tax of \$3,208 for the year.

### **Further information**

You can also obtain this information, the PDS for the Integral Master Trust, and some additional information from the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

### **Notes**

Note 1: The Manager's basic fee is a variable percentage up to 0.65%, and is charged to the investor rather than the Fund. The Manager's basic fee disclosed in the fund update is an estimate because it represents an allocation of the total actual amount paid by Scheme investors for this period. The Other management and administration fee includes an estimate of the fees for investment into the underlying fund and is based on management fee rates disclosed by that underlying fund managers.

Note 2: The Manager reasonably expects the fund charges for the following scheme year to be approximately 1.05% due to rearrangement of the fees charged to the Fund.
